

With Prof. Dr. Sabine Scheckenbach, Academic Director

The international view on the supply chain, on management and consulting in logistics are the core topics of our MBA course of studies at the Hochschule Ludwigshafen.

It has been designed for working professionals or graduates of all disciplines. A mixture of self-directed learning and face-to-face learning in block seminars allows to continue working. The students don't need to interrupt their career and leave the job. Of course it helps if employer and family support the 'student'.

If this sounds interesting to you, we cordially invite you to join us for an information meeting on

Saturday, 15th December at 11:00 am (German time)

online or offline at Ludwigshafen.

Prof. Dr. Scheckenbach, academic director, will present the concept of the program.

Our student Anna Meshchanova, coming from Russia and living and working in Mannheim, will share her experiences with the program and explain why she decided to do this program.

Iris Zimmermann will give details about the application procedure and the online platform and the rules and flexibility of the program.

Address: Hochschule Ludwigshafen, Ernst-Boehe-Str. 4, B-building, Room B321 (3rd floor)
